Summary

Web Developer with 3 years of coding experience, currently pursuing a degree in Computer Science. Skilled in HTML, CSS, JavaScript, Spring Boot, PostgreSQL, and C programming, with hands-on experience building real-world applications including a university room management system, gym management platform, and e-commerce tools. Passionate about developing modern, responsive websites and writing efficient, structured code. Actively seeking freelance and full-time opportunities to apply technical skills and continue growing in the field.

Education

Mathematics Bacaloria	2022-2023
Hamdan Khoja High School	
Computer Science	2023-2026
Naama University	

Experience

Freelance / Independent Web Developer	2023 – Present
--	----------------

- Designed and developed multiple web applications and systems for academic and practical use.
- Engineered a room and meeting management system to streamline scheduling and resource allocation.
- Built management platforms including a gym system and retail price checker tool.
- Developed responsive front-end interfaces and integrated backend services using Spring Boot and PostgreSQL.
- Focused on clean code, usability, and performance across all projects.
- Continuously improved technical skills through hands-on development and real-world problem solving.

Third place in chess in my city	2024
